February 11, 1971

MEMORANDUM FOR

Mr. Richard Helms

The Office of Science and Technology has recently established a Panel under James Fisk of Bell Laboratories on U.S.-Soviet Scientific and Technical Relations to review past contacts in these areas with the Soviets and assess future prospects.

A comparison with the level of technical contacts between the USSR and other developed countries appears essential--particularly Britain, France, Germany and Japan, perhaps among others.

My staff has been in touch with your Dr. Edward Allen on this matter. Before any work is undertaken, however, I wanted to ask your cooperation in permitting staff of the necessary divisions to work on assembling this information.

Dr. Norman Neureiter of my staff (395-3510) will be responsible on behalf of OST.

Edward E. David, Jr.
Director

Remarks:			
<p>Carl:</p> <p>Ed Allen will be happy to cooperate with you on this Panel, but I feel this really is of primary concern to you and would suggest you designate the Agency's principal contact point.</p> <p>As you know, OER has done a good deal of work on Soviet technology and does follow the export of Western technology to the Bloc very closely. Perhaps it would be best if you have your designee get in touch with Ed to find what support he can provide.</p> <p style="text-align: right;">15/</p> <div style="border: 1px solid black; width: 80px; height: 30px; margin: 0 auto;"></div>
